CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere disponibile in due diverse varianti di colore: bianco (A12) e grafite (A14).

Sedute e schienali sono supportati da cinghie elastiche sintetiche coordinate al colore della struttura, grigio chiaro (B2) o grigio scuro (B1).

Tessuto grigio (C83) per la struttura bianca, grigio scuro (C81) per la versione grafite.

Listello in teak sul lato superiore della struttura dei braccioli e di schienale.

Imbottitura in quick dry foam. Cuscineria sfoderabile, facile da lavare e resistente agli agenti atmosferici.

Tavoli pranzo e tavoli caffè con struttura in alluminio verniciato a polvere. La struttura bianca ha il piano in ceramica color Perla (S25), la struttura grafite in ceramica colore Carbone (S26).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 586.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore, cavillature superficiali o porosità corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the items have a powder-coated aluminum frame in white (A12) or graphite (A14).

Sofa and seats are supported by polyester belts coordinated to the frame colour: light grey (B2) or dark grey (B1).

Grey fabric (C83) for the white frame; dark grey (C81) for the graphite frame.

Teak slat along the upper part of the frame (back and arms).

Cushions with removable covers, easy to wash and weather resistant. Quick dry foam padding.

Dining and coffee table have a powder coated aluminum frame. The white version has a pearl (S25) ceramic top, the graphite one has a charcoal ceramic top (S26).

For colour combinations refer to the catalogue starting from page 586.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of color, surface cracks or porosity will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

Catalogue page 9

Tutti gli articoli sono caratterizzati da una struttura di base in alluminio verniciato a polvere in colore grafite (A14) o mokka (A15). La struttura di schienali e braccioli, anch'essa costituita da una struttura interna in alluminio, è rivestita da un intreccio di fibre di midollino sintetico nella colorazione beige (R50) o brown (R51). Cuscineria con imbottitura realizzata in dacron e rivestita con tessuti studiati per l'outdoor in inkas white (C61). Tavoli caffè in vetro fumé (G4) e coffee bown (G5).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 32.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All articles are characterized by a base structure in powder-coated aluminium in graphite color (A14) or mokka (A15).

The back and armrest structure, also made of an internal aluminium structure, is covered with a woven synthetic wicker fibres in beige (R50) or brown (R51).

Cushion with padding made of dacron and covered with fabrics designed for the outdoor in inkas white (C61).

Coffee tables in fumé (G4) or coffee bown (G5) glass.

For the colour combinations available, see catalogue starting on page 32.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

For maintenance, see the use and maintenace sheet starting form page 84 of this pricelist.

Catalogue page 193

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere nei colori bianco (A12) e grafite (A14).

Struttura schienale rivestita da un intreccio di corde in tessuto sintetico beige (R28) o grigio scuro (R8).

Cuscineria sfoderabile con imbottitura in quick dry foam, rivestita con tessuti studiati per l'outdoor impermeabili è disponibile nelle colorazioni; White (C53), dark grey (C48w).

Tavoli caffè e tavolo pranzo con struttura in alluminio verniciato a polvere. La struttura bianca ha il piano in ceramica color beige (S18), la struttura grafite in ceramica color Carbone (S11).

Letino impilabile, reclinabile e con ruote.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 232.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore (della ceramica) differente tra il piano e l'allunga, corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All items are characterized by a powder-coated aluminum frame in white (A12) and graphite (A14).

Backrest structure covered with a synthetic rope weave in beige (R28) or dark gray (R8).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: White (C53), dark gray (C48w). Quick dry foam padding.

Coffee tables and dining table with powder-coated aluminum frame. The white structure has a beige ceramic top (S18), the graphite structure has a charcoal ceramic top (S11).

Stackable, reclining and wheeled sunbed.

For colour combinations, refer to the catalog starting from page 232.

For additional protection, we recommend the use of covers in winter season or in the evening, mainly in rainy periods.

Any imperfection related to shades of the ceramic colour, between the top and the extension leaf, will correspond to the standard and will therefore not be considered valid exceptions in this regard.

For maintenance, consult the use and maintenance sheet starting from page 84 of this price list.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere disponibile in due diverse varianti di colore warm white (A3) grafite (A14), con schienali e braccioli in corda intrecciata beige (R3) e grigio scuro (R8).

Tessuto inkas white (C61) per la versione warm white, castle white (C2) per quella grafite.

Cuscineria in tessuto, sfoderabile, facile da lavare, e resistente agli agenti atmosferici. Imbottitura in quick dry foam.

Tavoli pranzo e caffè con piani in gres beige per le versione war white (S18) e grigio scuro (S15) per la versione grafite.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 266.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore, cavillature superficiali o porosità corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All items are characterized by a powder-coated aluminium structure available in two different color variations warm white (A3) and graphite (A14), with backrest and armrests in beige color braided rope (R3) and dark grey color (R8).

Inkas white fabric (C61) for the warm white version, castle white (C2) for the graphite one.

Cushion in fabric, removable, easy to wash and resistant to atmospheric agents. Padding in quick dry foam.

Dining and coffee tables with beige stoneware tops for the war white (S18) version and dark grey (S15) for the graphite version.

For the colour combinations available, see the catalogue on page 266.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of color, surface cracks or porosity will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere nei colori warm white (A3) e mokka (A15).

Struttura schienale rivestita da un intreccio in fibra ultra slim white (R57) o mokka (R58).

Cuscineria sfoderabile con imbottitura in quick dry foam, rivestita con tessuti studiati per l'outdoor impermeabili è disponibile nelle colorazioni: Inkas white (C61).

Tavolo pranzo con struttura in alluminio verniciato a polvere e piano in gres sand limestone (S20).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 156.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All items are characterized by a powder-coated aluminum frame in warm white (A3) or mokka (A15).

Backrest structure covered with an ultra slim fiber in white (R57) or mokka (R58).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: Inkas white (C61). Quick dry foam padding.

Dining table with powder-coated aluminum frame and top in gres sand limestone colour (S20).

For colour combinations, refer to the catalog starting from page 156.

For additional protection, we recommend the use of covers in winter season or in the evening, mainly in rainy periods.

For maintenance, consult the use and maintenance sheet starting from page 84 of this price list.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura di base in alluminio verniciato a polvere in colore Bianco (A12) Grafite (A14) o Rosso (A7), mentre gli schienali, anch'essi costituiti da una struttura interna in alluminio sono rivestiti da un intreccio di corde imbottite, di colore grigio (R30) o rosso (R40).

Cuscineria sfoderabile, imbottitura realizzata in quick dry foam e rivestita con tessuti studiati per l'outdoor impermeabili è disponibile nelle colorazioni; dark grey (C95), silver (C96w), rosso indiano (C145).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 188.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the items are characterized by a powder-coated aluminum frame in White (A12), Graphite (A14) or Red (A7).

The backrests are made up of an aluminum structure and are covered with a weave of padded rope in gray color (R30) or red (R40).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: Dark grey (C95), silver (C96w) or indian red (C145). Quick dry foam padding.

For colour combinations, refer to the catalog starting from page 188.

For additional protection, we recommend the use of covers in winter season or in the evening, mainly in rainy periods.

For maintenance, consult the use and maintenance sheet starting from page 84 of this price list.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere disponibile in tre diverse varianti di colore: bianco (A12), tortora (A13) o grafite (A14).

Divani e poltrona living con rivestimento in corda sintetica disponibile in due diverse colorazioni: grigio chiaro (R32) e beige scuro (R33). Cuscineria sfoderabile, imbottitura realizzata in quick dry foam e rivestita con tessuto disponibile nelle varianti: bianco caldo (C53), grigio scuro (C95) e silver (C96w).

Poltrona pranzo impilabile con struttura in alluminio colore bianco (A12), tortora (A13), grafite (A14), rosso (A7) o verde bamboo, rivestita in textilene.

Cuscino seduta opzionale disponibile oltre ai precedenti colori anche nelle varianti grigio chiaro (C83) e grigio scuro (C81).

Lettino e sdraio sono impilabili e reclinabili.

Possibilità di allunga opzionale di 60 cm applicabile al tavolo Milo alluminio 200x100 nelle varianti di colore bianco (A12), tortora (A13) e grafite (A14). Possibilità di allunga opzionale di 60 cm applicabile al tavolo Milo ceramica 200x100 nelle varianti di colore bianco (S14), grigio scuro (S15) e beige (S18).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 566.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore (della ceramica) differente tra il piano e l'allunga, corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito. Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All items are characterized by a powder-coated aluminum structure available in three different colors: white (A12), dove (A13) or graphite (A14).

Sofas and living room armchair with synthetic rope covering available in two different colors: light gray (R32) and dark beige (R33). Removable cushions, padding made of quick dry foam and covered with fabric available in the variants: warm white (C53), dark gray (C95) and silver (C96w).

Stackable dining armchair with aluminum structure in white (A12), dove (A13), graphite (A14), red (A7) or reed green (A4) colour, covered in textilene.

Optional seat cushion available in addition to the previous colors also in light gray (C83) and dark gray (C81) variants.

Sunbed and deckchair are stackable and reclining.

Dining table Milo 200x100cm made of aluminum with 60cm optional extension leaf available in white (A12), dove (A13) or graphite (A14). Dining table Milo 200x100cm made of ceramic with 60cm optional extension leaf available in white (S14), dark grey (S15) or beige (S18). For colour combinations refer to the catalogue starting from page 566.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of the ceramic color, between the top and the extension leaf, will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere nei colori bianco (A12) tortora (A13) o grafite (A14). Sedute e schienali sono rivestiti da un intreccio di corde in grigio chiaro (R7), grigio scuro (R8) o beige (S28).

Cuscineria sfoderabile con imbottitura in quick dry foam, rivestita con tessuti studiati per l'outdoor impermeabili è disponibile nelle colorazioni; Light grey (C19), dark grey (C17), warm white (C53).

Struttura dell'altalena in alluminio verniciato a polvere nei colori bianco (A12) e grafite (A14). Corda abbinata al colore della seduta. Bulloneria di fissaggio altalena non inclusa.

Tavoli caffè e tavolo pranzo con struttura in alluminio verniciato a polvere. La struttura bianca ha il piano in ceramica color bianco (S14), la struttura grafite in ceramica grigio scuro (S15), la struttura tortora in ceramica beige (S18).

Tavoli pranzo misura 160/215x90 e 200/260x100 con struttura e piano completamente in alluminio.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 366.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore (della ceramica) differente tra il piano e l'allungo, corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the items have a powder-coated aluminum frame available in the following colours: white (A12), dove (A13) or graphite (A14).

Seats and backrests are covered with a synthetic rope weave in the following colours: light grey (R7), dark grey (R8) or beige (R28).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours:

light grey (C19), dark grey (C17) or warm white (C53). The padding is made of quick dry foam.

Swing chair aluminum frame available in the following colours: white (A12) and graphite (A14). Rope tone on tone with the seats.

Swing fixing bolts not included.

Dining and coffee table have a powder coated aluminum frame. The white version has a white (S14) ceramic top, the graphite one has a dark grey ceramic top (S15), the dove one has a beige ceramic top (S18).

Dining tables 160/215x90 and 200/260x100 with frame and top completely in aluminum.

For colour combinations refer to the catalogue starting from page 366.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of the ceramic color, between the top and the extension leaf, will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

Catalogue page 293

Tutti gli articoli sono caratterizzati da una struttura di base in alluminio verniciato a polvere in colore grafite (A14).

La struttura di schienali e braccioli, anch'essa costituita da una struttura interna in alluminio, è rivestita da un intreccio di fibre di midollino sintetico nella colorazione beige (R50).

Cuscineria con imbottitura realizzata in dacron e rivestita con tessuti studiati per l'outdoor in inkas white (C61).

Tavoli caffè in fibra di vetro lucida beige (S48) e marrone (S49).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 308.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All articles are characterized by a base structure in powder-coated aluminium in graphite color (A14).

The back and armrest structure, also made of an internal aluminium structure, is covered with a woven synthetic wicker fibres in beige (R50).

Cushion with padding made of dacron and covered with fabrics designed for the outdoor in inkas white (C61).

Coffee tables in glossy beige (S48) and brown (S49) fiberglass.

For the colour combinations available, see catalogue starting on page 308.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

disponibile in diverse colorazioni: Dark grey (R10), Giallo (R19), Rosso (R21), Sabbia (R22) e Verde petrolio (R23).

Cuscineria con imbottitura realizzata in dacron e rivestita con tessuti studiati per l'outdoor è disponibile nelle colorazioni;

Twill black (C8), Twill yellow (C14), Plain white (C49), Mambo sand (C54), Outmap turquoise (C55), Plain beige (C56), Outmap plum (C68), Twill rust (C69), Outmap grey (C70), Outmap olive (C73).

Poltrona Panama uovo disponibile sia basamento girevole che struttura sospesa.

Tavoli caffè con struttura in alluminio verniciato a polvere nei colori Giallo (A5), Verde petrolio (A6), Rossa (A7), Beige (A21), o Grafite (A14).

Piano in gres Calacatta spessore 12mm.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 446.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the items have a powder-coated aluminum frame in Yellow (A5), Dark-blue green (A6), Red (A7), Beige (A21) or Graphite (A14). The upper structure, characterized by the internal structure in aluminum, is covered with an interweaving of synthetic rope available in Dark grey (R10), Yellow (R19), Red (R21), Sand (R22) and Dark-blue green (R23).

Cushions are upholstered with fabrics specifically designed for outdoor, with dacron padding. Available in Twill black (C8), Twill yellow (C14), Plain white (C49), Mambo sand (C54), Outmap turquoise (C55), Plain beige (C56), Outmap plum (C68), Twill rust (C69), Outmap grey (C70), Outmap olive (C73).

Panama egg armchair available in both swivel base and suspended structure.

Coffee tables with powder-coated aluminum frame, available in Yellow (A5), Dark-blue green (A6), Red (A7), Beige (A21) or Graphite (A14). Calacatta gres top 12mm (thickness).

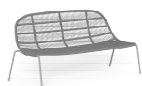

For colour combinations refer to the catalogue starting from page 446.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

Catalogue page 455

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in alluminio verniciato a polvere nei colori bianco (A12) e grafite (A14).

Sedute e schienali sono rivestiti da un intreccio di corde grigio chiaro (R7) o grigio scuro (R8).

Cuscineria sfoderabile con imbottitura in quick dry foam, rivestita con tessuti studiati per l'outdoor in colore Silver (C96).

Tavolo pranzo e tavoli caffè con piani in gres porcellanato da 6mm colore cemento chiaro (S25) per la versione bianca e colore carbone (S11) per la versione grafite.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 472.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore (della ceramica) differente tra il piano e l'allunga, corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the items have a powder-coated aluminum frame available in the following colours: white (A12) and graphite (A14).

Seats and backrests are covered with a synthetic rope weave in the following colours: light grey (R7) or dark grey (R8).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: light grey (C19) and dark grey (C17). The padding is made of quick dry foam.

Swing chair aluminum frame available in the following colours: white (A12) and graphite (A14). Rope tone on tone with the seats.

Swing fixing bolts not included.

Dining and coffee table have a powder coated aluminum frame. The white version has a pearl (S25) ceramic top, the graphite one has a charcoal ceramic top (S11).

Dining tables 160/215x90 and 200/260x100 with frame and top completely in aluminum.

For colour combinations refer to the catalogue starting from page 472.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of the ceramic color, between the top and the extension leaf, will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

Catalogue page 507

CARATTERISTICHE

Tutti i divani sono caratterizzati da una struttura in polietilene nelle varianti colore bianco (PE1), tortora (PE2), grafte (PE3), rosso (PE4) e blu (PE5).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 516.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 84 del presente listino.

FEATURES

All the sofas are in the variants with a polyethylene structure in white (PE1), dove gray (PE2), graphte (PE3), red (PE4) and blue (PE5). For colour combinations refer to the catalogue starting from page 516.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

For maintenance, see the use and maintenance sheet starting from page 84 of this pricelist.

USE & MAINTENANCE

Maintenance materials

Metalli / Metals

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.

Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.

Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cataphoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Maintenance materials

Legni / Wood

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable raw material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Fiberglass

Per la pulizia della fibra di vetro utilizzare un panno morbido e sapone neutro. Evitare prodotti abrasivi o acidi, che potrebbero danneggiare la superficie. Asciugare subito per prevenire aloni o macchie con un panno in microfibra.

For cleaning the fiberglass use a soft cloth and mild soap. Avoid abrasive or acid products, which could damage the surface. Dry immediately to prevent stains with a microfiber cloth.

Maintenance materials

Corde sintetiche / Synthetic ropes

Doppia treccia costruita con anima in nylon e copertura in olefin multi filamento, resistente ai raggi UV.
Per la pulizia si raccomanda di utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori.

The double braid made with nylon core and multi-filament olefin cover is resistant to UV rays.
It is recommended to clean with water and non-abrasive liquid detergents, use only products with neutral PH and colourless

Corde sintetiche imbottite / Synthetic padded ropes

Doppia treccia costruita con anima in nylon e copertura in olefin multi filamento, resistente ai raggi UV.
Per la pulizia si raccomanda di utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori

The double braid made with nylon core and multi-filament olefin cover is resistant to UV rays.
It is recommended to clean with water and non-abrasive liquid detergents, use only products with neutral PH and colourless

Cinghie elastiche / Elastic belt

Ottenute mediante la tessitura di materiali sintetici studiati per permette di essere usata all'esterno.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato.
Si consiglia di evitare l'utilizzo di solventi.
Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro ed incolori.

Obtained through the weaving of synthetic materials especially conceived outdoor use.

We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable it is suggested to avoid the use of solvents. Use water and non-abrasive liquid detergents with neutral PH and colourless.

Maintenance materials

Pietra lavica / Lava stone

Lava è un materiale robusto, consistente e di facile manutenzione realizzato smaltando artigianalmente lastre in pietra lavica o in gres. È un processo che unisce tecnologia e tradizione artigianale in cui vengono sapientemente bilanciati tempo e temperatura, donando inaspettate particolarità alla superficie. I colori, trasparenti e luminosi, applicati con processi manuali, permettono di cogliere, fra le loro sfumature, la porosità e le imperfezioni della pietra. Le lievi variazioni di spessore e tonalità di colore sono quindi valori di prestigio che rendono ogni prodotto unico.

La cottura ad alte temperature ed il vetro, completamente riciclato tramite un esclusivo processo di frantumazione e macinazione, migliora la superficie nelle sue caratteristiche tecniche, capace di rispondere a tutte le esigenze del vivere l'esterno.

Lava is a robust, consistent and easy-to-maintain material made by hand-glazing lava stone or stoneware slabs. It is a process that combines technology and traditional craftsmanship in which time and temperature are wisely balanced, giving unexpected peculiarities to the surface. The colors, transparent and bright, applied with manual processes, allow to capture, among their shades, the porosity and imperfections of the stone. The slight variations in thickness and color shades are therefore prestige values that make each product unique.

The firing at high temperatures and the glass, completely recycled through an exclusive crushing and grinding process, improves the surface in its technical characteristics, able to meet all the needs of outdoor living.

Gres / Stoneware

Il gres, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Grazie all'utilizzo di materiali puri compattati tra loro ad alte temperature, senza l'aggiunta di resine sintetiche, il gres risulta molto resistente agli urti e alla flessione.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Porcelain stoneware, thanks to its excellent physical and flexural strenght, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. This material is obtained through the synthesis process of ceramic clays, feldspars, kaolins and sand.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Maintenance materials

Cemento / Concrete

Il cemento è un materiale naturale e, in quanto tale, durante il suo processo produttivo possono verificarsi leggere sfumature e variazioni delle tonalità dell'impasto cementizio, che caratteristica portante del materiale e della tecnologia. Le fibre sono una componente dell'impasto cementizio e conferiscono al cemento Ductal la sua estrema resistenza e flessibilità. Se la finitura scelta è molto levigata, le fibre possono intravedersi sulla superficie e devono essere accettate come caratteristica intrinseca alla finitura.

I piani in cemento, specialmente di grandi dimensioni, non sono perfettamente planari a causa della natura stessa del materiale e della sua lavorazione artigianale.

Micro cavillature da ritiro, devono essere accettate come fenomeno naturale della lavorazione del materiale.

Piccoli fori e bolle possono apparire sulla superficie dei prodotti in cemento. Essi sono una naturale conseguenza del processo produttivo e parte integrante delle caratteristiche del materiale. Il loro aspetto e la loro quantità varia da finitura a finitura. I fori inferiori a 4 mm di diametro vengono lasciati tali, mentre di norma vengono stuccati quando superano il diametro di 5 mm.

Il cemento è un materiale poroso che tende ad assorbire i liquidi che entrano in contatto con la sua superficie, per questo va protetto con dei prodotti appositi; antidegrado ed antimacchia. È importante quindi evitare il ristagno dei liquidi sui piani e specialmente il contatto prolungato tra cemento e oggetti bagnati quali vasi, bottiglie, bicchieri o teli di plastica: una non corretta evaporazione dei liquidi può causare infatti macchie difficilmente removibili dai manufatti.

Eseguire una pulizia superficiale con l'utilizzo di una soluzione di acqua e detergente neutro con basso contenuto di cera (es. prodotti per pavimenti in marmo). Per macchie insistenti, è possibile utilizzare soluzioni che contengono ammoniaca/candeggina diluita al 10%, cioè 1 parte di candeggina su 10 parti di acqua.

Cement is a natural material and due to its nature it may present slight nuances and variations in its combination, which is a key characteristic of the material and production technology.

Fibres are a component of the cement mix and give the Ductal cement its extreme strength and flexibility.

If the chosen finish is highly polished, fibres may be visible on the surface and must be accepted as an intrinsic feature of the finish.

Cement top and flat surfaces, especially the large ones, are not perfectly flat due to the nature of the material and its craftsmanship.

Micro shrinkage cracks must be accepted as a natural phenomenon of the material's workmanship.

Small holes and bubbles may appear on the surface of cement products. They are a natural consequence of the production process and an integral part of the material's characteristics.

Their appearance and quantity varies from finish to finish.

Holes smaller than 4 mm in diameter are left as they are, while they are normally grouted when they exceed 5 mm in diameter.

Cement is a porous material that tends to absorb liquids which get in contact with its surface, which is why it must be protected with special products such as anti wear sealant and Anti stain sealant. It is therefore important to avoid the stagnation of liquids on the surfaces and especially the prolonged contact between cement and wet objects such as vases, bottles, glasses or plastic sheets: incorrect evaporation of liquids can cause stains that are difficult to remove.

Clean the surface with water and neutral detergent with a low content of wax (for ex. marble flooring products). Stubborn stains can be cleaned by using a solution containing 10% diluted ammonia/bleach, which is 1 part bleach for 10 parts water.

Maintenance materials

Pietra / Stone

Una delle pietre più pregiate e maggiormente impiegate in outdoor è sicuramente il marmo.

Il marmo, grazie alla sua particolare composizione e natura, è una pietra poco porosa e poco assorbente, durezza e resistenza, fanno del marmo una tra le pietre più pregiate e durevoli nel tempo.

La formazione del marmo avviene mediante un processo metamorfico di cristallizzazione: il carbonato di calcio, venendo in contatto con le rocce sedimentarie, dà vita ad un insieme di cristalli di calcite e minerali vari, i quali ne determinano il colorito.

Per mantenere la lucentezza del marmo e del granito è necessario detergere giornalmente le superfici: è sufficiente diluire il sapone neutro in acqua tiepida.

Le superfici dovranno essere strofinate per mezzo di una spugna o un panno morbido. Sarà sufficiente risciacquare con un panno umido, prestando attenzione a non lasciare i fastidiosi aloni di detergente.

Marble is certainly one of the most precious and used stones for the outdoor.

Marble, thanks to its particular composition and nature, is a little porous and not absorbing stone, hardness and resistance, making marble one of the most precious and durable stones in time.

The marble formation takes place by means of a metamorphic crystallization process: calcium carbonate, coming into contact with the sedimentary rocks, gives rise to a set of crystals of calcite and various minerals, which determine the complexion.

To maintain the shine of marble and granite it is necessary to clean the surfaces daily: it is sufficient to dilute the neutral soap in warm water.

The surfaces must be rubbed with a sponge or a soft cloth. It will be sufficient to rinse with a damp cloth, being careful not to leave detergent stains.

Fibra wicker / Wicker fiber

La fibra wicker è un materiale sintetico che riproduce l'aspetto del midollino, con il valore aggiunto di essere completamente resistente agli agenti atmosferici e al passare del tempo. Una delle caratteristiche distintive della fibra wicker è il suo intreccio, realizzato meticolosamente a mano. Questo processo artigianale richiede grande attenzione ai dettagli, in modo da garantire non solo la resistenza e la durata del materiale, ma anche un'estetica che trasmette calore e artigianalità. Ogni filo, con un diametro di 2mm, viene intrecciato con precisione per creare una trama irregolare, che risulta particolarmente confortevole e piacevole al tatto. Questa cura nella lavorazione a mano conferisce un carattere unico a ogni prodotto realizzato con la fibra wicker, combinando tradizione e innovazione per ottenere elementi dall'aspetto naturale ma dalla straordinaria leggerezza e resistenza, specialmente quando accoppiata a strutture in alluminio.

Per la pulizia e manutenzione ordinaria, è consigliato lavare la fibra con acqua a pressione, utilizzando una spugna non abrasiva e un sapone delicato oppure una spazzola a setole morbide per raggiungere meglio gli spazi tra gli intrecci. È importante evitare l'uso di strumenti che possano graffiare la superficie della fibra. Lasciare asciugare la corda al sole e ricoprire con i cuscini solo quando è completamente asciutto.

Wicker fibre is a synthetic material that reproduces the look of wicker, with the added value of being completely resistant to weather and time. One of the distinctive features of wicker fiber is its meticulously hand-crafted weaving. This artisanal process requires great attention to detail, so as to ensure not only the strength and durability of the material, but also an aesthetic that conveys warmth and craftsmanship. Each wire, with a diameter of 2mm, is precisely braided to create an irregular weave, which is particularly comfortable and pleasant to the touch. This care in the hand-made process gives a unique character to each product made with wicker fiber, combining tradition and innovation to obtain elements of natural appearance but extraordinary lightness and resistance, Especially when coupled to aluminium structures.

For ordinary cleaning and maintenance, it is recommended to wash the fiber with water under pressure, using a non-abrasive sponge and mild soap or a soft bristle brush to better reach the spaces between the weaves. It is important to avoid using tools that can scratch the surface of the fiber. Let the rope dry in the sun and cover with cushions only when it is completely dry.

Maintenance materials

Vitter

Il Vitter è un durevole laminato compatto di ultima generazione, senza formaldeide che ha come caratteristica esclusiva quella di essere tutto colore, interno ed esterno.

Caratteristiche principali:

- interamente impermeabile
- ignifugo ed autoestinguente (classe B-s2, d0)
- altissima resistenza agli urti e ai graffi
- resiste all'uso di detergenti chimici aggressivi
- adatto al contatto diretto con gli alimenti
- non trattiene odori e sapori
- antibatterico, per rispondere ai più severi requisiti igienici.

In caso di sporco ostinato o incuria rimuovete prima con un panno morbido e umido eventuali depositi di materiale secco, senza sfregare per non rigare la superficie.

Utilizzate poi una spugna morbida non abrasiva e un detergente domestico, lavate la superficie con il detergente e risciacquate con acqua tiepida, quindi asciugate bene.

Vitter is the latest generation compact laminate formaldehyde-free characterized by a durable surface, with the unique feature of being full colour, inside and outside.

Main features:

- it is completely waterproof
- it is flame-retardant and self-extinguishing (class B-s2, d0)
- it has a very high resistance to impacts and scratches
- it is resistant to the use of aggressive chemical detergents
- it is suitable for direct contact with food
- it does not retain odours or flavours
- it is antibacterial, to meet the most stringent hygiene requirements.

In case of stubborn dirt or lack of care, we recommend to first remove any dry deposits with a soft and damp cloth, without rubbing to avoid scratching the surface.

Then use a soft, non-abrasive sponge and a household detergent, wash the surface with the detergent and rinse with warm water, at the end dry thoroughly.

Maintenance materials

100% polyethylene

Il polietilene è un materiale plastico molto adatto all'arredo esterno. Ha una superficie particolarmente pratica, lavabile, resistente ai raggi UV e agli agenti atmosferici nel corso del tempo. Ha un' elevata resistenza agli urti, una resistenza eccellente alla corrosione e ai prodotti chimici.

Non è penetrabile da liquidi come acqua, soluzioni saline o alcool.

Non utilizzare acidi ossidanti, quali acido Nitrico, acido solforico o alogeni.

Polyethylene is a plastic material that is perfectly suitable for outdoor furniture. Its surface is particularly practical, washable, UV and weather-resistant over the time.

Not penetrable by liquids such as water, salt solutions or alcohol, this material stands out also for its high-impact resistance and its excellent resistance to corrosion and chemicals.

Do not use oxidising acids, such as nitric acid, sulphuric acid or halogens.

100% polyethylene tech

Il poliuretano Tech è un poliuretano strutturale quindi non necessita di alcuna struttura metallica interna. È un materiale ad alta densità (600-700 Kg/m³) che permette di realizzare qualsiasi forma, con spessori anche molto sottili.

Ha un'elevata resistenza agli urti, ben superiore a quella dei tradizionali rigidi strutturali, mantenendo comunque una gradevole elasticità in termini di comfort. Ha una buona resistenza al graffio.

Pulire le sedute in poliuretano è molto semplice, pratico e veloce.

Per prima cosa è necessario rimuovere lo sporco dalla seduta, per garantire la durata dei prodotti pulisci le superfici utilizzando solo acqua tiepida e sapone neutro.

Non utilizzare solventi aggressivi come l'acetone o detergenti a base di benzine e alcalini che possono aggredire chimicamente il materiale compromettendone estetica e integrità strutturale.

The polyurethane Tech is a structural polyurethane, therefore it does not need any inner metallic structure.

Is a high density material (600-700 Kg/m³) that enables to make any shape with very thin designs.

Tech has a high shock resistance, much higher if compared to traditional structural rigid PU, keeping at the same time a good elasticity in terms of seating comfort. It has a good resistance to scratches too.

Cleaning polyurethane seats is very simple, practical and fast.

First of all, it is necessary to remove the dirt, then you must moisten a cloth with water and with a suitable specific product that is not too aggressive. To ensure the durability of the products, clean the surfaces using only warm water and neutral soap.

Do not use aggressive solvents such as acetone or petrol and alkaline based detergents which can chemically attack the material compromising its aesthetics and structural integrity.

Cover

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo):
N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua:
mm 1200 - norma EN 1928
- Permeabilità all'aria l/(mq-s):
norma EDANA 140.2-99
- Trasmissione del vapore acqueo: Sd value m 0,051 - norma EN 12752.
- Protezione contro i raggi UV 500/1000 ore

It is made of three coupled layers. The external ones are made of propylene whose function is not only the aesthetic one, since it also protects the internal membrane. Such membrane is the technical fabric that plays the most important role: the permeability to air and the impermeability. Washing: to wash with soap and water, do not wash in washing machine or dry cleaning.

- Composition of the fabric: propylene
- Weight of the fabric: about gr 170
- Resistance to laceration (nail):
N(MD) 180 - EN12310-1 Standard
- Resistant to water penetration:
mm 1200 - EN 1928 Standard
- Resistance to air penetration l/(mq-s):
EDANA 140.2-99 Standard
- Water vapor transmission: Sd value m 0,051 - regulation EN 12752.
- protection against UV 500/1000 hours
