Catalogue page 33

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura di base in alluminio verniciato a polvere in colore Bianco (A12) o charcoal (A9), mentre gli schienali, anch'essi costituiti da una struttura interna in alluminio sono rivestiti da una fibra intrecciata, di colore ecru (R4) o nero (R5).

Cuscineria sfoderabile, imbottitura realizzata in quick dry foam e rivestita con tessuti studiati per l'outdoor è disponibile nelle colorazioni; bianco-beige (C62) sulla struttura bianca e carbon (C63) sulla struttura charcoal.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 44.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 40 del presente listino.

FEATURES

All the items are characterized by a powder-coated aluminum frame in White (A12) or Charcoal (A9).

The backrests are made up of an aluminum structure and are covered with wicker twist in canvas color (R4) or black (R5).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: white-beige (C62) or carbon (C63). Quick dry foam padding.

For colour combinations, refer to the catalog starting from page 44.

For additional protection, we recommend the use of covers in winter season or in the evening, mainly in rainy periods.

For maintenance, consult the use and maintenance sheet starting from page 40 of this price list.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura di base in alluminio verniciato a polvere in colore Tortora (A13) o charcoal (A9), mentre gli schienali, anch'essi costituiti da una struttura interna in alluminio sono rivestiti da una corda sintetica in tinta al colore della seduta: beige (R46) o grey (R47).

Cuscineria sfoderabile, imbottitura realizzata in quick dry foam e rivestita con tessuti studiati per l'outdoor è disponibile nelle colorazioni; bianco-beige (C62) sulla struttura tortora e carbon (C63) sulla struttura charcoal.

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 14.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 40 del presente listino.

FEATURES

All the items are characterized by a powder-coated aluminum frame in Dove colour (A13) or Charcoal (A9).

The backrests are made up of an aluminum structure and are covered with wicker twist in ecru colour (R46) or carbon (R47).

Cushions have removable covers and are upholstered in weather resistant outdoor fabrics available in the following colours: white-beige (C62) or carbon (C63). Quick dry foam padding.

For colour combinations, refer to the catalog starting from page 14.

For additional protection, we recommend the use of covers in winter season or in the evening, mainly in rainy periods.

For maintenance, consult the use and maintenance sheet starting from page 40 of this price list.

MAINTENANCE

Maintenance materials

Metalli / Metals

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino.

Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detersivi neutri.

Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate.

We recommend cleaning the surfaces with a soft cloth using water or neutral detergents.

Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter

Maintenance materials

Textilene

Il Textilene è una fibra di poliestere protetta da un rivestimento in PVC.

Le fibre vengono poi legate insieme in modo da ottenere una sostanza fibrosa particolarmente solida e permanente, resistente allo stiramento ed immune da strappi.

La caratteristica più importante è la sua elasticità, offre un'eccellente resistenza alle muffe e alle macchie, e presenta un trattamento superficiale contro la degradazione UV.

Il textilene può essere pulito semplicemente con un panno di spugna con acqua saponata. Abrasivi e solventi devono essere assolutamente evitati!

Si asciuga molto rapidamente a causa della loro struttura aperta.

Textilene is a polyester fiber protected by a PVC coating.

The fibers are bonded together so in order to obtain a particularly solid fibrous material which is durable, resistant to stretching and wear resistant too.

The most important characteristic is its elasticity, offers excellent resistance to inhibits mold and stains, and has a surface treatment against UV degradation.

Textilene can simply be cleaned with a sponge cloth with soapy water. Abrasives and solvents must absolutely be avoided!

It dries very quickly due to their open structure.

Maintenance materials

Legni / Wood.....

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Mogano: E' un legno dalle notevoli proprietà meccaniche, fisiche e strutturali. E' un legno compatto e solido, che non subisce alterazioni nel tempo, ma che tende a rispondere bene all'usura, alla compressione e alla flessione. Le sue caratteristiche di solidità e compattezza, si affiancano a quelle di longevità, bellezza e resistenza agli sbalzi termici.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Mahogany: It is a wood with remarkable mechanical, physical and structural properties. It is a compact and solid wood, which does not undergo alterations over time, but which tends to respond well to wear, compression and bending. Its features of solidity and compactness are accompanied by those of longevity, beauty and resistance to thermal changes.

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable raw material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth. Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Maintenance materials

Corde sintetiche / Synthetic ropes

Doppia treccia costruita con anima in poliestere e copertura in propilene multi filamento.
La fibra esterna di cui è composta è impermeabile e resistente ai raggi UV.

Si raccomanda di pulire con prodotto neutro e panno non abrasivo.

Double braid made with polyester core and multi-filament propylene cover.
The external fiber is waterproof and resistant to UV rays.

It is recommended to clean with a neutral product and a non-abrasive cloth.

Cinghie elastica / Elastic belt

Ottenute mediante la tessitura di materiali sintetici studiati per permette di essere usata all'esterno.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi.

Utilizzare acqua e detersivi liquidi non abrasivi con PH neutro ed incolore.

Obtained through the weaving of synthetic materials especially conceived outdoor use.

We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable it is suggested to avoid the use of solvents.

Use water and non-abrasive liquid detergents with neutral PH and colourless.

Maintenance materials

Fibra intrecciata / Wicker twist

La fibra wicker è un materiale sintetico che riproduce l'aspetto del midollino, resistente agli agenti atmosferici ed ai raggi uv.

Completamente intrecciata a mano con una fibra ritorta di diametro 7mm ed ha una texture ruvida che la rende perfettamente naturale al tatto e alla vista.

Per la normale pulizia e manutenzione si consiglia di lavare la fibra con acqua a pressione, aiutandosi con una spugna non abrasiva e sapone delicato o con una spazzola dalle setole morbide. Si raccomanda di non utilizzare attrezzi che possano scalfire la superficie della fibra. Far asciugare completamente il mobile prima di riposizionare la cuscineria.

The Wicker fiber is a synthetic material that resembles to a wicker, resistant to atmospheric agents and UV rays. It is completely hand-woven with a twisted fiber of 7mm diameter and has a rough texture that makes it perfectly natural to the touch and sight.

For normal cleaning and maintenance it is recommended to wash the fiber with pressurized water, using a non-abrasive sponge and mild soap or with a soft bristle brush. It is recommended not to use tools that could scratch the surface of the fiber. Allow the furniture to dry completely before repositioning the cushions.

Maintenance materials

Gres porcellanato / Porcelain stoneware

Il gres porcellanato, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Tale materiale viene ottenuto tramite il processo di sintetizzazione di argille ceramiche, feldspati, caolini e sabbia.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Porcelain stoneware, thanks to its excellent physical and flexural strenght, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. This material is obtained through the synthesis process of ceramic clays, feldspars, kaolins and sand.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Stoneglass

Vetro temperato con effetto pietra, composto:
90% vetro, 5% verniciatura, 5% polvere di pietra

Per una pulizia ordinaria può essere pulito semplicemente con un panno di spugna con acqua saponata.
Per macchie più intense utilizzare panno di spugna ed alcool.

Stone effect glass composition:
90% glass, 5% paint 5% stone powder

Clean instruction:
Use water for regular clean.
For stain, use towel with alcohol

Maintenance materials

Tessuto 100% polyolefinic FR classe 1 / 100% polyolefinic fabric FR class 1

CODICE / CODE: C115 - C116 - C117 - C118

Maintenance materials

Cover

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo):
N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua:
mm 1200 - norma EN 1928
- Permeabilità all'aria I/(mq-s):
norma EDANA 140.2-99
- Trasmissione del vapore acqueo: Sd value m 0,051 - norma EN 12752.
- Protezione contro i raggi UV 500/1000 ore

It is made of three coupled layers. The external ones are made of propylene whose function is not only the aesthetic one, since it also protects the internal membrane. Such membrane is the technical fabric that plays the most important role: the permeability to air and the impermeability. Washing: to wash with soap and water, do not wash in washing machine or dry cleaning.

- Composition of the fabric: propylene
- Weight of the fabric: about gr 170
- Resistance to laceration (nail):
N(MD) 180 - EN12310-1 Standard
- Resistant to water penetration:
mm 1200 - EN 1928 Standard
- Resistance to air penetration I/(mq-s):
EDANA 140.2-99 Standard
- Water vapor transmission: Sd value m 0,051 - regulation EN 12752.
- protection against UV 500/1000 hours

GENERAL CONDITIONS OF SALE DELIVERY INCLUDED

1. The colours, drawings and sizes of the products in this catalogue are approximate. Talenti Spa reserves the right to discontinue or change the models in its collections at any time without advance notice.

2. The prices of the standard models are expressed in the specific price list that Talenti Spa will provide. Concerning customized items the offer will be immediately made and provided by Talenti Spa on request of the customer.

Prices are ex works. In case of delivery with hydraulic bank the quotations of our freight forwarder will be applied.

3. The purchaser is always required to inspect the goods and indicate on the transport document the date of receipt, the person who received it and the company's stamp, as well as any anomalies found in the material. Talenti Spa will not accept any claims presented more than 5 (five) days after receipt of the goods.

4. Orders must be in writing using the codes, descriptions and prices shown in the catalogue and price lists.

5. Transport terms in France, Germany, Switzerland, Austria:

Free port for orders starting from € 1.800,00.

For orders under € 600,00 a € 80,00 transport fee will be charged.

For orders from € 600,00 to € 1.800,00 a 8 % transport fee will be charged.

6. Transport terms in UK:

Free port for orders over € 3.000,00.

For orders from € 0 to € 1.000,00 a € 90,00 transport fee will be charged.

For orders from € 1.000,00 to € 3.000,00 a 5 % transport fee will be charged.

7. The Court of Terni (Italy) will be exclusively competent for any disagreements.

For different Countries please refer to Talenti sales-managers
