CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in iroko colore natural teak (L3) o colore palissandron (L6).

Cuscineria in tessuto colore bianco-beige (C123) e pesco (C141), sfoderabile, facile da lavare e resistente agli agenti atmosferici.

Imbottitura in quick dry foam.

Seduta e schienale supportati da cinghie elastiche sintetiche ecru (B5) o mokka (B6).

Tavolo caffè con piano in gres spessore da 12 mm (S20).

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 462.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Eventuali imperfezioni legate a tonalità di colore, cavillature superficiali o porosità corrisponderanno allo standard e non saranno per tanto ritenute valide eccezioni in merito.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 72 del presente listino.

FEATURES

All the items have an Iroko wood frame in teak natural colour (L3) or palissandro colour (L6)

Cushions in white-beige fabric (C123) or peach white (C141), with removable covers, easy to wash and weather resistant.

Quick dry foam padding.

Sofa and seats are supported by polyester belts in ecru colour (B5) or mokka (B6), specifically formulated for outdoor use.

Coffee table with 12mm gres cement top (S20).

For colour combinations refer to the catalogue starting from page 462.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

Any imperfection related to shades of color, surface cracks or porosity will correspond to the standard and will not be considered valid exceptions in this regard.

For maintenance, see the use and maintenance sheet starting from page 72 of this pricelist.

CARATTERISTICHE

Tutti gli articoli sono caratterizzati da una struttura in teak naturale (L9) con braccioli e schienali in tubolare di alluminio rivestito da un intreccio di corde sintetiche colore o grigio (R12) o tortora (R31).

Cuscineria in tessuto grigio (C12) o mélange grey (C88), tessuto sfoderabile, facile da lavare, e resistente agli agenti atmosferici.

Imbottitura in quick dry foam.

Tavolo caffè e tavolo pranzo disponibile o con struttura e piano in teak naturale (L9) o con struttura in teak naturale (L9) e piano in hpl grigio (S11).

Letto con seduta in textilene nero (T7), impilabile, con ruote e cremagliere in acciaio inox (I1)

Per le combinazioni colore disponibili, consultare il catalogo a partire da pagina 282.

Per una protezione supplementare si consiglia l'utilizzo delle apposite coperture nella stagione invernale, alla sera, o in caso di piogge frequenti.

Per la manutenzione consultare la scheda uso e manutenzione a partire da pagina 72 del presente listino.

FEATURES

All items are characterized by a natural teak structure (L9) with armrests and backrests in tubular aluminum covered with a weave of synthetic ropes in either gray (R12) or dove gray (R31).

Cushions in gray fabric (C12) or mélange gray (C88), with removable covers, easy to wash and weather resistant. Quick dry foam padding.

Coffee table and dining table available with structure and top in natural teak (L9) or with structure in natural teak (L9) and top in gray hpl (S11).

Sunbed with black textilene seat (T9), stackable, stainless steel wheels and racks (I1).

For colour combinations refer to the catalogue starting from page 282.

For additional protection, we recommend the use of our covers in winter season or in the evening mainly in rainy periods.

For maintenance, see the use and maintenance sheet starting from page 72 of this pricelist.

MAINTENANCE

Maintenance materials

Metalli / Metals

Alluminio: Grazie alla fusione di più leghe di alluminio che ne garantiscono solidità, maneggevolezza ed inattaccabilità alla ruggine, è un materiale di elevata qualità e permette di raggiungere i massimi risultati qualitativi ed estetici.

Inox: L'acciaio inossidabile è un materiale che, grazie alla sua alta resistenza alla corrosione e alle caratteristiche meccaniche di rilievo, risulta maggiormente duraturo e affidabile nel tempo.

Acciaio: Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con il processo della cataforesi e verniciatura a polvere.

Manutenzione: Per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detersivi neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

Aluminum: Thanks to the fusion of several aluminum alloys that guarantee solidity, manageability and rust resistance, it is a material of high quality and allows to reach the maximum qualitative and aesthetic results.

Inox: Stainless steel is a material that, thanks to its high resistance to corrosion and to the mechanical characteristics of relief, is more durable and reliable over time.

Steel: Iron and carbon alloy with carbon percentage less than 2% treated to resist to the atmospheric agents with the cataphoresis process and powder coating.

Maintenance: To keep the product in good condition for a long time, we recommend a regular cleaning period, particularly frequent in places characterized by high humidity and marine climate. We recommend cleaning the surfaces with a soft cloth using water or neutral detergents. Prolonged and uninterrupted exposures to intense UV radiation or at very low temperatures can affect the initial characteristics of the colored polyester coating. We recommend cleaning and storing products in sheltered areas during long periods of non-use and winter.

Maintenance materials

Legni / Wood

Teak: Materiale di elevata qualità ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

Accoya è una nuova varietà di legname di eccezionale durabilità, questo legno dalle elevate prestazioni viene prodotto con materie prime sostenibili e gestite in maniera ottimale, non è tossico ed è inoltre dotato di una stabilità dimensionale e di una durabilità in grado di superare quella dei migliori legni duri tropicali.

Iroko: particolare tipo di legno dotato di numerose proprietà meccaniche, fisiche e tecnologiche: la capacità di opporsi alle sollecitazioni esterne e l'attitudine a lasciarsi lavorare nonostante la sua durezza. La particolare stabilità e la medio-alta durezza conferiscono a questo legno una buona resistenza alle deformazioni e ne garantiscono una durata nel tempo davvero eccellente.

Trattandosi di un materiale naturale si potrebbero osservare variazioni di colore o anche crepe dovute al grado di umidità ed ai bruschi cambiamenti di temperatura. Qualora non ricevesse alcun trattamento di manutenzione, mediante l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie potrebbe prendere una patina grigio argento che potrà essere eliminata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute ad olio o altri prodotti alimentari dovranno essere rimosse tempestivamente, prima che il legno possa assorbirle in profondità, carteggiando la superficie interessata e lucidandola successivamente con un panno di iuta.

Teak: High quality material suitable for outdoor furniture because it is extremely resistant to changes in temperature, water, humidity and saltiness.

Accoya is a new variety of wood characterized by an exceptional durability. This wood shows very good performances and is produced with sustainable raw material, managed in an optimal way. It is not toxic and it has got a dimensional stability. Its durability is much higher than the one of the best hard tropical wood.

Iroko: particular type of wood with numerous mechanical, physical and technological properties: its resistance to external stress and workability despite its hardness. The particular stability and medium-high hardness give this wood a good flexural strength resistance to deformation and guarantee excellent durability.

Being a natural material, colour variations or even cracks due to the degree of humidity and sudden changes in temperature may be observed. If no maintenance treatment is received, through the periodic application of common and specific protective oil-based, the surface may take a silver-gray patina that can be easily removed with a light surface sanding down and subsequent polishing with a jute cloth.

Small superficial stains due to oil or other food products must be removed promptly, before the wood can absorb them in depth, sanding down the affected surface and then polishing it with a jute cloth.

Maintenance materials

Corde sintetiche / Synthetic ropes

Doppia treccia costruita con anima in nylon e copertura in olefin multi filamento, resistente ai raggi UV.
Per la pulizia si raccomanda di utilizzare acqua e detersivi liquidi non abrasivi con PH neutro ed incolori.

The double braid made with nylon core and multi-filament olefin cover is resistant to UV rays.
It is recommended to clean with water and non-abrasive liquid detergents, use only products with neutral PH and colourless.

Cinghie elastiche / Elastic belt

Ottenute mediante la tessitura di materiali sintetici studiati per permettere di essere usata all'esterno.

Si consiglia di evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venir assorbite dal materiale di rivestimento e dare luogo, di conseguenza, a macchie permanenti e rischiare di deteriorare la struttura del filato. Si consiglia di evitare l'utilizzo di solventi.
Utilizzare acqua e detersivi liquidi non abrasivi con PH neutro ed incolori.

Obtained through the weaving of synthetic materials especially conceived outdoor use.

We recommend to avoid prolonged contact with greasy substances and / or dyes which could be absorbed by the covering material used and consequently cause permanent stains and risk to deteriorate the structure of the yarn. It is advisable it is suggested to avoid the use of solvents. Use water and non-abrasive liquid detergents with neutral PH and colourless.

Maintenance materials

Terrazzo

Terrazzo o graniglia è un materiale nato grazie al riciclo degli scarti del cemento colorato e alla lavorazione del marmo. Viene ottenuta da una miscela di cementi fortemente leganti, colorati in pasta con ossidi naturali, e schegge recuperate dalla frantumazione dei più svariati tipi di marmo.

La superficie del Terrazzo viene poi levigata per ottenere una finitura piacevole al tatto e per esaltare la bellezza degli inerti.

Pulizia e manutenzione ordinaria con acqua e sapone neutro. Il sapone naturale pulisce, disinfetta e nutre le graniglie proteggendole allo stesso tempo. NON utilizzare detergenti aggressivi o prodotti acidi/alkalini che comprometterebbero il pavimento calcareo. L'utilizzo, periodico, di cera neutra per marmo nell'acqua ravviva i colori e crea un effetto patina che proteggerà le graniglie.

Terrazzo or Graniglia is a material created by recycling coloured cement waste and marble processing.

It is obtained from a mixture of strongly binding cements, coloured with natural oxides, and splinters recovered from the crushing of various types of marble.

The Terrazzo surface is then polished to obtain a finish that is pleasant to touch and to enhance the beauty of the aggregates.

It can be cleaned with water and neutral soap. Natural soap cleans, disinfects and nourishes the graniglia. DO NOT use aggressive detergents or acid/alkaline products that would compromise the limestone floor. The periodic use of neutral marble wax mixed in some water revives the colours and creates a patina effect that will protect the graniglia.

Gres porcellanato / Porcelain stoneware

Il gres porcellanato, grazie alle sue eccellenti proprietà fisiche e meccaniche, risulta essere ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Tale materiale viene ottenuto tramite il processo di sintetizzazione di argille ceramiche, feldspati, caolini e sabbia.

Per la pulizia dei piani in gres si consiglia l'utilizzo di un panno inumidito con acqua e detergente neutro da risciacquare ed asciugare con un panno asciutto. Nella fase di lavaggio porre particolare attenzione al fine di evitare l'accumulo di sporco o calcare.

Porcelain stoneware, thanks to its excellent physical and flexural strength, turns out to be ideal for outdoor use, being unaffected by atmospheric agents and unalterable to UV rays. This material is obtained through the synthesis process of ceramic clays, feldspars, kaolins and sand.

For the cleaning of stoneware tops it is advisable to use a damp cloth with water and a neutral detergent to be rinsed and dried with a dry cloth. During the washing phase, pay particular attention to avoid the accumulation of dirt.

Maintenance materials

Cover

Realizzato con un accoppiato in 3 strati. I due strati esterni sono di propilene ed hanno funzione sia estetica, sia di protezione della membrana interna. La membrana interna è il tessuto tecnico che svolge la maggior parte del lavoro e che ha le proprietà di permeabilità all'aria e impermeabilità. Lavaggio: acqua e sapone, no lavaggio a macchina o a secco.

- Composizione tessuto: polipropilene
- Peso del tessuto: gr 170 circa
- Resistenza alla lacerazione (chiodo):
N(MD) 180 - norma EN12310-1
- Resistenza alla penetrazione d'acqua:
mm 1200 - norma EN 1928
- Permeabilità all'aria I/(mq-s):
norma EDANA 140.2-99
- Trasmissione del vapore acqueo: Sd value m 0,051 - norma EN 12752.
- Protezione contro i raggi UV 500/1000 ore

It is made of three coupled layers. The external ones are made of propylene whose function is not only the aesthetic one, since it also protects the internal membrane. Such membrane is the technical fabric that plays the most important role: the permeability to air and the impermeability. Washing: to wash with soap and water, do not wash in washing machine or dry cleaning.

- Composition of the fabric: propylene
- Weight of the fabric: about gr 170
- Resistance to laceration (nail):
N(MD) 180 - EN12310-1 Standard
- Resistant to water penetration:
mm 1200 - EN 1928 Standard
- Resistance to air penetration I/(mq-s):
EDANA 140.2-99 Standard
- Water vapor transmission: Sd value m 0,051 - regulation EN 12752.
- protection against UV 500/1000 hours

GENERAL CONDITIONS OF SALE DELIVERY INCLUDED

1. The colours, drawings and sizes of the products in this catalogue are approximate. Talenti Spa reserves the right to discontinue or change the models in its collections at any time without advance notice.

2. The prices of the standard models are expressed in the specific price list that Talenti Spa will provide. Concerning customized items the offer will be immediately made and provided by Talenti Spa on request of the customer.

Prices are ex works. In case of delivery with hydraulic bank the quotations of our freight forwarder will be applied.

3. The purchaser is always required to inspect the goods and indicate on the transport document the date of receipt, the person who received it and the company's stamp, as well as any anomalies found in the material. Talenti Spa will not accept any claims presented more than 5 (five) days after receipt of the goods.

4. Orders must be in writing using the codes, descriptions and prices shown in the catalogue and price lists.

5. Transport terms in France, Germany, Switzerland, Austria:

Free port for orders starting from € 1.800,00.

For orders under € 600,00 a € 80,00 transport fee will be charged.

For orders from € 600,00 to € 1.800,00 a 8 % transport fee will be charged.

6. Transport terms in UK:

Free port for orders over € 3.000,00.

For orders from € 0 to € 1.000,00 a € 90,00 transport fee will be charged.

For orders from € 1.000,00 to € 3.000,00 a 5 % transport fee will be charged.

7. The Court of Terni (Italy) will be exclusively competent for any disagreements.

For different Countries please refer to Talenti sales-managers
